Kabul Domestic Service (Second Program)											
1100-1130	Daily	Nuristani	IS	Full	#	NURISTANI	-	-	-	-	GF/TA may have very limited, unreliable coverage. NOTE: There is some question as to whether these casts, carried on 4775 kHz, are the Kabul Domestic Service Second Program or part of Kabul's International Service beamed to neighboring South Asian countries. The Islamabad survey reported broadcasts in Uzbek, Turkmen and Pashai between 1330 and 1530 GMT on 4380 kHz which may in fact be the Second Program. Only Islamabad can cover either set of broadcasts fully.
